INTRODUCTION

Secured DSS Islamabad is a smart security and monitoring system designed to improve security, transparency, and visitor management around embassies located in Islamabad's Red Zone.

The system helps monitor visitors from the moment they arrive until they leave, ensuring that every visit is properly recorded and verified.

ENHANCED
SECURITY

VISITOR
MANAGEMENT

REAL-TIME
MONITORING

COMPLETE
RECORDS

AIM OF THE PROJECT

Enhance security in the Red Zone.

Prevent terrorism and unauthorized activities.

Eliminate corruption.

Verify every visitor's identity.

Monitor embassy visits in real time.

Maintain secure digital records.

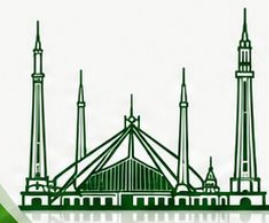

Support government agencies with instant information.

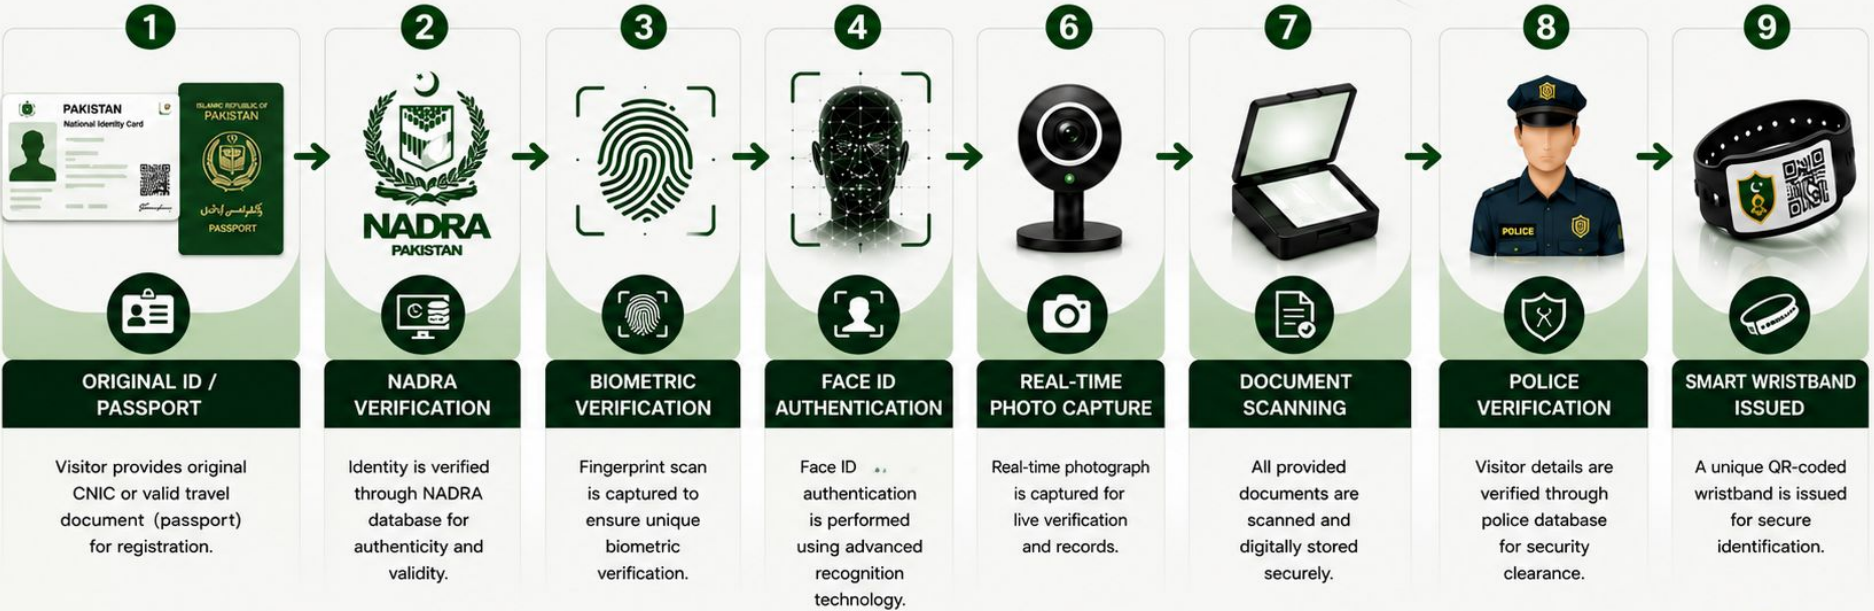

VISITOR VERIFICATION PROCESS

**Secured DSS
Islamabad**

Smart Security & Visitor Monitoring
System for Embassies

A secure and comprehensive verification system to ensure safety, transparency, and efficient visitor management.

One Visitor – One Wristband – One QR Code – One Visit

SMART SECURITY WRISTBAND

Secured DSS
Islamabad

Smart Security & Visitor
Monitoring System

A secure, tamper-proof wristband issued to every verified visitor for real-time identification, access control, and monitoring.

EACH WRISTBAND PROVIDES

SECURE IDENTIFICATION

Uniquely identifies the visitor through encrypted QR code.

REAL-TIME MONITORING

Enables real-time tracking and status monitoring.

ACCESS CONTROL

Grants access to authorized areas only.

TAMPER PROOF

Tamper-evident design to prevent misuse or transfer.

WATER RESISTANT

Durable and comfortable for daily use.

UNIQUE QR CODE

Encrypted QR code for instant verification.

VISITOR DETAILS

Displays visitor name, organization and visit date.

TIME STAMP

Records issue time for accurate tracking and accountability.

SECURE MATERIAL

High-quality, tamper-proof material for maximum security.

KEY FEATURES

SECURE & UNIQUE

Each wristband is unique to a verified visitor and cannot be duplicated.

INSTANT VERIFICATION

QR code can be scanned at any checkpoint for instant verification.

REAL-TIME ALERTS

Triggers alerts for unauthorized access or invalid wristbands.

ONE TIME – ONE VISIT

Valid only for the duration of the approved visit.

EASY RETURN

Wristband must be returned at the designated exit point.

ONE BARCODE – ONE VISITOR – ONE VIST

1. VERIFY

Visitor is verified using ID, biometric and face verification.

2. ISSUE

Unique wristband is issued after successful verification.

3. ACCESS

Wristband is scanned at entry points for secure access and monitoring.

4. EXIT

Wristband is scanned at exit and returned for record completion.

BUILT FOR SECURITY. DESIGNED FOR TRUST.

Ensuring a safe, transparent and controlled environment for embassies and government organizations.

MOBILE APPLICATION SMART SECURITY IN YOUR HAND

Secured DSS Islamabad Mobile App provides real-time access, verification, and monitoring of visitors with complete security and transparency.

KEY FEATURES

SCAN QR CODE

Scan visitor QR code for instant verification.

VERIFY IDENTITY

View and verify visitor identity details securely.

CONFIRM EMBASSY

Check and confirm the visitor's embassy.

VIEW VISITOR STATUS

See real-time status of visitor check-in and check-out.

REAL-TIME MONITORING

Monitor all visitor activities in real time.

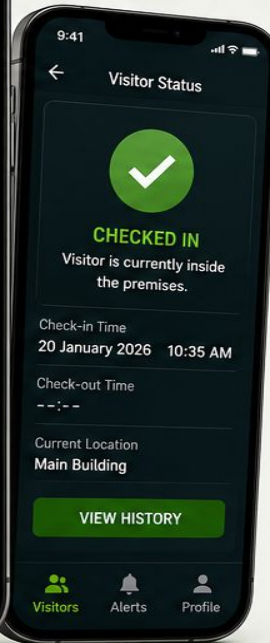

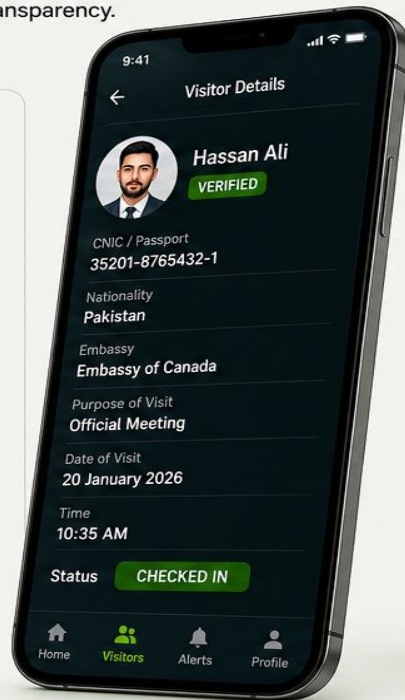

INSTANT ALERTS

Receive instant alerts for unauthorized access or suspicious activities.

**SECURE. REAL-TIME. RELIABLE.
ALL IN YOUR HAND.**

Secured DSS Islamabad

Smart Security & Visitor
Monitoring System

SECURE ACCESS

Only authorized users can access the app.

REAL-TIME DATA

Get real-time updates on visitor activities.

ENHANCED SECURITY

Strengthens security with instant verification and alerts.

DIGITAL RECORDS

All visitor records are stored securely.

EASY TO USE

User-friendly interface for quick and efficient management.

One App. Complete Control. Total Security.

REAL-TIME MONITORING

Monitor. Track. Protect.

Secured DSS Islamabad provides real-time monitoring of all visitor activities to ensure complete security, transparency, and operational efficiency.

LIVE SURVEILLANCE

Monitor all entry/exit points and restricted areas in real time.

VISITOR TRACKING

Track visitor movements within the premises in real time.

ACTIVITY DASHBOARD

Get real-time insights and analytics on all visitor activities.

INSTANT ALERTS

Receive instant alerts for suspicious or unauthorized activities.

SECURE RECORDS

All activities are recorded and stored securely for audit and review.

REAL-TIME AWARENESS.

FASTER RESPONSE. MAXIMUM SECURITY.

Smart Security & Visitor
Monitoring System

IDENTITY VERIFICATION PROCESS

1

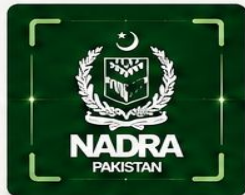

ORIGINAL ID
PRESENTATION

Visitor presents original
CNIC / Passport for
verification.

2

DATA EXTRACTION
& VALIDATION

Information is extracted
and verified through
NADRA system in
real time.

3

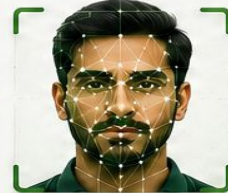

BIOMETRIC
VERIFICATION

Fingerprint is captured
and matched with
NADRA database for
authentication.

4

FACE ID
AUTHENTICATION

Face is scanned and
matched using AI
facial recognition
technology.

5

REAL-TIME PHOTO
CAPTURE

Live photograph is
captured for real-time
verification and record
keeping.

6

VERIFICATION
CONFIRMED

Identity verified
successfully. Visitor
is cleared for entry.

SAFE. SECURE. VERIFIED.

POLICE & CRIMINAL RECORD VERIFICATION

Comprehensive background verification to ensure safety, prevent threats, and maintain a secure environment.

Secured DSS
Islamabad

Smart Security & Visitor
Monitoring System

VERIFICATION SOURCES

LOCAL POLICE RECORDS

Verification from local police stations and district records.

CRIMINAL DATABASE (CID)

Cross-check with national criminal intelligence database.

INTERPOL WATCHLIST

Check against international wanted and watchlist records.

COURT RECORDS

Verification of pending cases, convictions, and legal status.

BIOMETRIC MATCH

Biometric verification to match identity with criminal database.

RESULT CONFIRMATION

Real-time results and verification status confirmation.

VERIFICATION PROCESS

1

VISITOR IDENTITY

Visitor provides CNIC / Passport for verification.

2

DATA COLLECTION

System extracts identity data for background verification.

3

POLICE RECORD CHECK

Checked against local police records and FIR database.

4

CRIMINAL RECORD DATABASE CHECK

Cross-checked with national CID & criminal intelligence database.

5

INTERPOL VERIFICATION

Verified against Interpol watchlist and international wanted list.

6

COURT RECORD VERIFICATION

Checked for pending cases, convictions and legal status.

7

RESULT CONFIRMED

Verification result generated and visitor status confirmed.

VERIFICATION RESULT STATUS

CLEARED

- No criminal record found
- No pending cases
- Visitor approved

UNDER REVIEW

- Some records found
- Additional verification in progress
- Hold for clearance

REJECTED

- Criminal record found
- Active case / Conviction
- Visitor denied

KEY BENEFITS

- Prevents unauthorized and high-risk individuals from entering secure premises.
- Ensures safety of staff, visitors and assets.
- Real-time verification for fast and accurate results.
- Maintains transparency and strong audit trail.
- Integrated, reliable and tamper-proof system.

VERIFY TODAY, SECURE TOMORROW.

SAFE PREMISES. SECURE NATION.

VISITOR RECORD MANAGEMENT

Centralized management of all visitor records for seamless tracking, security, and reporting.

Secured DSS Islamabad

Smart Security & Visitor Monitoring System

KEY FEATURES

CENTRALIZED RECORDS

Store and manage all visitor records in a secure system.

QUICK SEARCH & FILTER

Search by name, CNIC, visit date, status, purpose, or department.

VISIT HISTORY

View complete visit history, check-ins, and check-outs.

DOCUMENT MANAGEMENT

Securely store scanned IDs, documents, and approvals.

REPORTS & ANALYTICS

Generate detailed reports and insights for better decision making.

DATA SECURITY

Role-based access and encryption ensure complete data protection.

BENEFITS OF DSS

Smart Security. Better Control. Greater Confidence.

DSS delivers intelligent security and visitor management solutions that bring measurable advantages to your organization and operations.

Secured DSS
Islamabad

Smart Security & Visitor
Monitoring System

01

ENHANCED SECURITY

Strengthen overall security posture with advanced identity verification, access control, and real-time monitoring to prevent threats and unauthorized access.

02

EFFICIENT VISITOR MANAGEMENT

Streamline visitor registration, host notifications, and badge printing for a smooth, professional, and hassle-free visitor experience.

03

REAL-TIME MONITORING

Monitor all entry and exit activities in real time with instant alerts and live dashboards for complete situational awareness.

04

ACCURATE REPORTING & ANALYTICS

Generate detailed reports and analytics to support audits, compliance, and data-driven decision making.

05

OPERATIONAL EFFICIENCY

Maintain records securely by storing paperwork in both soft and hard copies. This ensures important documents are properly documented, easily accessible, and preserved for future reference and compliance purposes.

06

ROLE-BASED ACCESS CONTROL

Ensure that only authorized individuals get access to specific areas and information based on predefined roles and permissions.

07

DATA SECURITY & PRIVACY

Protect sensitive data with encrypted storage, secure communication, and strict access controls to ensure privacy and compliance.

08

SAFETY & PEACE OF MIND

Create a safer environment for employees, visitors, and assets with reliable security and quick response capabilities.

**Stronger Security.
Smarter Management.
Better Outcomes.**

**IMPROVED
ACCOUNTABILITY**
Maintain complete logs of every entry and activity.

FASTER RESPONSE
Instant alerts and notifications enable quick action.

BUILDS TRUST
Professional visitor management builds trust with visitors and staff.

COMPLIANCE
Helps meet regulatory requirements and audit standards.

SCALABLE SOLUTION
Flexible and scalable to grow with your organization.

CONCLUSION

Secure Today. Safer Tomorrow.

DSS delivers a comprehensive security and visitor management solution that empowers organizations to strengthen security, streamline operations, and build a safer, smarter environment for everyone.
